PROVEN RELIABILITY AND PERFORMANCE

CL-DIAX-CFG

CARBON FIBRE CRUISE LAMINATES

CL-DIAX-CFG is a range of carbon fibre cruising laminates. They gain their extreme strength and performance from the unique carbon fibre construction and durability from the tough polyester taffetas and Technora DIAX. These Carbon CL products are ideal for a variety of applications including club racing and performance cruise up to 55ft.

- Polyester Taffetas
- Technora Fill/ Warp Scrim
- Carbon Fibre Warp Ribbons
- Technora Diagonal Axis Ribbons
