

DIMENSION-POLYANT

*The Sailcloth Producer*

**Vectron**

The nature of offshore and extended cruising exposes yacht sails to many harsh conditions, with this in mind DIMENSION-POLYANT have developed the VEC line. Special in-house production methods are used to combine low stretch, high strength Vectran with best quality high tenacity Polyester to produce a tightly woven fabric that is strong, is easy to handle with exceptionally durability. Effects of UV exposure are minimised by our unique UVi<sup>®</sup> Technology providing market leading resistance keeping sails in better condition longer.

## Vectron

- **HIGHEST QUALITY FROM THE START**

DIMENSION-POLYANT uses only performance high tenacity fibers, customdeveloped chemicals as well as premium films from qualified suppliers

- **IN-HOUSE MANUFACTURING**

DIMENSION-POLYANT is worldwide the sole producer of high quality sailcloth with its own in-house manufacturing. As sailcloth is our only product we have invested in customized equipment for weaving, finishing and laminating.

- **CONTINUOUS INNOVATION**

DIMENSION-POLYANT has the most dedicated R&D team, the state-of-the-art facilities and preferred access to the newest fibers, chemicals and components. Together with German and American engineering this provides the base for trend setting developments.

- **GLOBAL REACH**

Our worldwide distribution and technical support network makes DIMENSION-POLYANT the perfect partner for your sailmaker

This performance line of sailcloth is produced with our new UVi® Technology which has been recently implemented in our finishing process. With our UVi® Technology we are able to improve the UV resistance of the fabric by 10 - 15 % resulting in a substantially longer durability.
